

Adult Regular Ball Python (Hillsboro)

Location

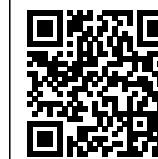

Kentucky

<https://www.genclassifieds.com/x-315134-z>

I have a 6 year old Adult Ball Python that that I need to re-home. I'm moving and sadly need to downsize on my pets. I do not know if the snake is a male or a female. It's always just been a pet. I've had it since it was a month old and it has always been a good eater (currently one med live rat every 2 weeks), never sick or any problems. \$100 firm for the snake, 20 gal tall tank its in, heat rock, water bowl, log hideout, and his next feeding (if I still have it). Call/text

Located in Hillsboro, OH 45133, but can meet in Fayetteville, OH 45118 which is an hour closer to Cinci. if that.
