

Custom Tele WJoe Barden Pickups (Prairieville)

Location **Louisiana**
<https://www.genclassifieds.com/x-315311-z>

Here a really nice custom built Tele style guitar that plays and sounds great. It has USACG alder body in a beautiful coral lightly relic'ed nitro finish. It has a brand new set of Joe Barden Danny Gatton pickups that sound incredible. It also has a brand new Joe Barden bridge set up with compensated brass saddles. The pickguard is also a new Fender vintage pearl that blends very well with the coral body. It has brand new 250k CTS dishback pots with a CRL 3way switch and a SwitchKraft jack mounted in a Electrsocket cup so the jack will never come loose. It has a AllParts maple neck with a rosewood fretboard. It has a soft V profile with a 9.5" radius. The neck has a nice vintage amber finish and is in excellent condition. It has a brand new set of Wilkinson deluxe vintage style tuners. The guitar plays, looks and sounds great and has low action with no buzz. The guitar will come in a new Fender hardshell case. If you have a trade offer please email the pics and info. If your looking at this ad it's still available. I'm asking \$1000 cash. Email or Text twotwofive/339
