

Good Used Serpentine Belt for 7.3 Powerstroke Dual Alternator (15 USD)

Location **Idaho**
<https://www.genclassifieds.com/x-315682-z>

I bought a new belt for my truck because of noise, and the realized my tensioner assembly was coming apart. With a new tensioner, there was no more noise. This is a Gates Micro-V belt, and is the only belt I use in repairs. Part K081377, which sells for at least \$50-60 new.

NOTE: This will only fit models with the dual alternators, which is basically the same setup that the Ambulance Package has. This belt has no cracks or visible wear and is still in very good shape. Thank!
