This is a pump installed new on a 2004 Vue, and only has 4000 miles. It was replaced because the cover was leaking, which could not be bought separately, so I replaced the whole pump. This is the GMB brand, marketed under the Prestone name, and is my first choice in water pumps, as they seem to have the highest quality, and are used as OEM equipment on many cars, including Toyota. This pump never leaked, and always performed well while installed. I sell this unit new for \$87, so get a good deal now!

This should fit any Vue with the 4-cylinder engine, but I have not confirmed that. Give me a call.!
