I have been working for someone and have finally decided to go out on my own, willing to travel. I am willing to do major and minor fencing needs from tear out to new. Also will do other project that are needed to be done, pricing I will meet or beat any other company just to get my name out there. I have been in the farming industry for most of my life along with the construction field. Also have the ability to build catch coral and loading chute. Send me a message with your name, contact information, and the project your needing done.
