KITCHEN and BATHROOM

Are your kitchen / bathroom counter tops scratched /dented, worn out or better yet, "out dated"?

Is the existing laminate "bubbling" because of water damage around the sink area and shows signs of mold and mildew?

Maybe you bought your home recently and would like to replace the counter tops because of color / texture in an inexpensive way or want to "connect and add more counter space" possibly with a breakfast bar.

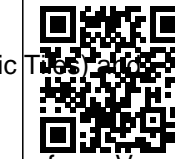

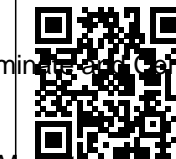

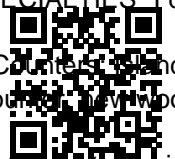

You did your research and shopped around only to find that granite is "way over your budget" and you would like to stretch that budget to do more things in your kitchen than just "one thing".

Why wait any longer, have your kitchen or bathroom counter tops replaced with new laminate professionally! ( Note: its always best to remove the old counter top with laminate and install new plywood with new laminate) cut sink hole and install.

My name is Joseph Petralia and have been in the construction business now for 40 years. I work on "one job at a time" (Big or Small), so when a job has been completed, I then take the next customer on my list. I have a Registered NH Business Trade Name. I am Fully Insured and have lots of Excellent References.

Here are some of the "SPECIALTIES" I do that may interest you:

- 1). Custom Kitchen Counter tops, Breakers Bars, re-design, re-facing counter sections, removal and matching of walls Laminated Ceramic Tiles, and laminating over existing counter top wood or plywood tops.
- 2). Kitchen and Bathroom Cabinet: Laminate or "Re-Facing" with "Real Wood Veneer" to face frames, draws, new hardware and doors. Many types to choose from. Very affordable!
- 3). Back Splashes: Ceramic Tiles, Metal Embossed Tin, Back splash and Stone.
- 4). Custom Built Bathroom Vanities Designed and built on premises for one sink or "his and hers" (two sinks). You pick the bowls design and faucets.

---

5). Custom Built Bathroom Vanity Mirror(s)

6). Custom Built Toilet Wall Niche: Magazine Rack and Toilet Paper Holder.

7). Custom Built Office Desks: For home, office or kids room. Built to the size you want or from one wall to the other. Wall racks, shelves, mail and letter slots and draws. Made with ??????????,Â" plywood or composite for strength and your choice of Laminate color. Built on premises.

8). HANDICAP Counters / Sink: Custom built counters are lower for wheel chair availability and at a comfortable working height. Cabinets will be "narrower in depth" (from front to back) so wheel chair can get closer to sink and counter with ease to prepare food etc. Cabinets and counter tops are built on premises. (I also build pressure treated, Exterior walkway / Handicap Wheel Chair Ramps). Please note: If you have something you want built in any room or installed, Please E-mail me with your Ideas.

Please feel free to contact me on any questions you may have by E-mail. Please leave your IMPORTANT !!! TOWN, PHONE NUMBER and a BRIEF DESCRIPTION of your job. Thank you for your time. . ...look forward in hearing from you. . ....Joe
