86 Honda Magna 700 V45 with 24,155 miles. Front forks seals replaced last year. New front tire with 90% tread left on rear. Had the carbs done not that long ago. Has 15 tabs and is ready to go. She runs great. I bought this bike 8 years ago and it had a dent on the front left side of the tank. I have never fixed it because it never bothered me. If you want a great running bike and are ok with a few minor cosmetic issues. Than this is your bike. Price reflects condition. Bring cash and it yours.
