Lots of companies say they are the best at what they do. What really matters is the quality of the work and what your own experience is by the time the job is completed.

There are 4 ways a basement can leak water. Jay's Waterproofing installs a time-tested and proven system that provides a solution for all 4.

In business since 1965.

An A+ rating with the Better Business Bureau

The system and quality is so good, it's guaranteed for the life of the structure- and it's transferable to the next owner.

The best news? Many have saved thousands of dollars calling this number instead of the bigger waterproofing companies with high overhead and prices to match.
