Hi, I am looking for someone to adopt Mittens my 7 month old kitten.

A little about mittens:

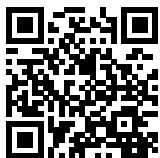

Mittens was adopted from the Sunapee Veterinarian Clinic with all of her shots, however she is yet to be spayed. She is super friendly, loving, and cuddly. She does not bite nor scratch. She is very playful and interactive, she makes this really cute dolphin noise whenever she is excited or frustrated.

I am not looking for a re-homing fee, however I am looking for a solid candidate to take her. She is not your average kitten and is definitely a special little kitten.

When I originally had adopted Mittens I had a different plan for her, however now with the summer approaching and me moving back to Rhode Island from Plymouth, I don't believe she will be able to fit into my plans.

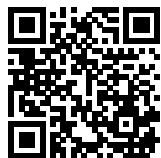

Contacting via e-mail is ok!

The photo shown is her at 3 months. She is still very.
