Mid-coast Maine has what you need for a great vacation, and Cushing Cottage is just the beginning. Built in the 1930s, Cushing Cottage has been cared for lovingly by generations of our family ever since. During the 1970s we started renting the cottage to guests and so began a family tradition of working to provide a lovely spot for hundreds of vacationing families.

Some people enjoy spending their vacations in different locations each year, and we definitely welcome those folks, but the vast majority of our guests return year after year, and we think that speaks volumes. Right at the waters edge, the two bedroom Cushing Cottage offers a charming, comfortable, clean, well-equipped spot for a perfect Maine vacation. Its mid-coast location provides a convenient base from which to take day trips to most of Maine's attractions....mountains, islands, day sails, museums, lighthouses, shopping, dining, etc.. For those who simply want to retreat from the hub-bub of a busy life, it's enough to be relaxing in the hammock with a good book, bathed in the warmth of the sun while listening to the gentle rhythm of the waves against the shore.

We have a few spring and fall weeks still available. Come see for yourself how rejuvenating and comfortable a vacation at Cushing Cottage can be. The charm, history, and natural beauty of Maine await you. We invite you to visit our website, <http://www.vinalpoint.com>, for interior and exterior photos, availability calendar, detailed information about Cushing Cottage, reviews, and contact information. \$900-\$1300 per week, May- October.
