

looking for a place to park and live in my van close to nashua NH

Location **New Hampshire** https://www.genclassifieds.com/x-316399-z

I would like to find a place around NH or MA to park and live in my van. Rent and real estate is stupid expensive in that area.

Looking to spend about \$30 per month or less free would be the best price

I am a handyman so I could do odd jobs in trade some months. I can fix anything there is on the planet earth...... houses, vehicles, computers...... even space craft.

I would like to be able to leave the vehicle there even when I am gone sometimes for months at a time. I travel to warm locations during the winter.
