For sale is my Kodak DCS-620x professional digital camera. It is in mint condition and looks, works just like it did the day I bought it. This camera cost \$11,000.00 in 2000. It was awesome then and still is now. It is the world renown Nikon F-5 with a kodak digital back machined into the body, made of magnesium. Lens not included. Will mount any Nikon lens, manual or auto focus.

Comes with charger, 2 batteries, 1 CF.
