=> You'll learn what you need to become a good bass player in as short a time as possible. Just some of the subjects we'll cover are:

- + THEORY: (the notes in common and exotic scales, which notes are in what chords, how notes and chords interact to create a bassline, and much more).
- + TECHNIQUE: (I'll give you fingering exercises to build up your "chops" as quickly and easily as possible).
- + HOW TO CREATE YOUR OWN BASSLINES: (how to use chord patterns and blues patterns, how to create a bassline that will make a song better and avoid what will not).
- + HOW TO PLAY ALONG WITH A DRUMMER: (everything you play must "groove" with the drummer. I'll help you develop your sense of rhythm so this will be much easier for you to do).
- + EAR TRAINING: (learn how to copy what you hear off your favorite CD'S, how to improvise and understand the theory behind your favorite basslines).
- + READING: (how key signatures work, notes on the music staff, value of each note, and much more).

=> My teaching methods are unique, and I guarantee you'll improve quickly, no matter how long you've been playing. All lessons are geared to the type of music you like to play, but what you learn can be applied to any style of music.

=> I have reasonable rates and a flexible schedule. I'm very patient, and do my best to teach in an enjoyable, no pressure way. I have extensive experience teaching teenagers as well as adults.

=> I'll set-up (adjust) your instrument so it will play as easily as possible at no charge. I'll teach you basic maintenance, setup, and repair, so you can keep your instrument in top condition (without having to pay a repairman).

=> I can teach you in at my home in Brooklyn (Brighton Beach), at a midtown Manhattan music studio (West 36th St. and 8th Ave) or possibly at your home. We can talk about what is best for you.

=> If it's not convenient for you to have our own bass, you can learn to play bass at home and use one of them for your lessons. I know how busy you are and I'll make it work for you.

=> I'll be happy to provide you with references of current students. You can speak to someone already making lessons from me. I encourage you to do this.

=> Please email (or call to discuss your needs. If you get my answering machine, just leave a message with the best time to call you back.

=> I hope to hear from you soon.
