NordicTrack Elite Target Toning Elliptical Trainer for Better, Faster Results

Get advanced training results every time you get aboard the NordicTrack Elite 10.7 Target Toning Elliptical. You'll tone more muscle and burn more calories with the incline training that the Target Toning Power Ramp allows, while simple OneTouch™ Controls help take your incline up without a pause to target your calves, hamstrings or thighs. As incline increases, the stride length on the 10.7 elliptical increases automatically to help target and tone muscles while maintaining a natural-feeling stride.

You'll never be bored when you equip this target toning elliptical trainer with iFit technology. Google Maps workouts bring real-world terrain to your workout, with automatically adjusting incline and resistance to replicate challenging trails around the world. Select from 16 calorie and 16 performance workout apps that are designed by a certified trainer to look and feel your best in less time.

â€?NordicTrack Elite 10.7 Target Toning Elliptical has 32 built-in workout apps...
