I need all the dirt gone out of this small garden, but I have nowhere to put the dirt. I'm looking for someone to haul it away. The garden measures 48L x 39W x 16H. You can take out the brick support holding the dirt in that lines the front and side of the garden. This garden is at the side of the house behind a gate. There is one small step down to the side gate but it has access to the front yard of the house and then to the street. I'd estimate the garden is about 30-40 ft from the street.

I would think that it should take one person 1-2 hours to get the dirt out. There is 2 hour parking out front and during the day parking should be easy. I'm looking to have this done on Monday, March 23rd.

I'll pay you \$75 to get the dirt out of my yard!

The last guy I hired didn't show, so please be reliable before agreeing to the gig.!
