

Peavy 5150 II for sale (600 USD)

Location **Pennsylvania**
<https://www.genclassifieds.com/x-316910-z>

I bought this head in August. It's still in really good working condition. It was serviced/retubed right before I bought it. It's 120watts, switchable OHM load between 16, 8, and 4 and it's got 6 12AX7s in the preamp and 4 6L6s in the power section. It doesn't have all that much mileage on it, but I'm looking to get something with less gain. Looking for \$600.00 for it. Text or email me bout.
