We have 10 full-blood Boxer puppies that will be ready to go on April 17th. They have had their tails docked and we are getting their first round of shots when they reach 6 weeks. We have been feeding them formula as well as letting them feed from their mom. They will all be on Purina Puppy Chow when they are released to their homes in April. We are asking \$300 and a \$100 deposit to hold. All the puppies are fawn and most of them have white markings on their face and/or neck. There are 2 girls and 8 boys and they will probably grow to be between 55-70 pounds (Their mom is 55 pounds and their dad is 65 pounds). We have the mom and dad and this is their second and last litter. We have included pictures of the mom and dad, the puppies, and some of the puppies from their LAST litter so you can tell what they will look like when they get a little bigger, because right now they are only a week old. Please call or text if you are interested. You are more than welcome to come see them, just give us a call or text.

\*These puppies are not registered, but since they ARE purebred, the AKC website explains the process of how to get them registered by sending in photos and an application, etc.

Please text 318-Four58-46Seven7 or 318-6seven6-two8five0 if you're interested! Thanks!

-April &
