I am looking for a puppy that will stay small or grow to be a medium size dog after full grown. It has to be a good nature puppy because I have cats and a 10 month old puppy (half beagle and half wire hair fox terrier) and she is very good with my cats but I want her to have a friend for herself. All my animals are spayed and neutered and utd on their shots. They are spoiled and very well taken care of. I am not on here looking for a free puppy because I want to re-insure that the puppy would be going to a good home. I can send pics whenever you like so you can see the puppy's progress. I am not looking for a full blood puppy cause I know that would be outrageous pricing then. I am just looking for a cute little puppy and willing to pay a re homing fee of nothing over \$100.00. Please no sick puppy I will be taking it to a vet right away to make sure he is healthy. I am looking for a puppy at least 8 weeks to 12 weeks old so it can be raised here with me all it's life, male or female doesn't matter, I can house train the puppy so I'm not worried about that. If you have a puppy for sale then could you please email me with pics and info on the puppy? Thank you so very.
