

Affordable, Private Tutoring (Drexel)

Location **Pennsylvania** https://www.genclassifieds.com/x-317026-z

Hello!

My name is Robert, and I am currently a student at Drexel University majoring in accounting and financing. I graduated high school with a 3.7 GPA and a 2070 on my SAT. I started tutoring two years ago, when my friend's younger brother asked for help in geometry and English. After about a month of working with him, we brought his grades up a full letter in each class and ever since then I've enjoyed helping people do better academically.

I tutor students in the following subjects:
Any level of English
Any level of History or Social Science
Geometry
Algebra
Government / Economics
Environmental / Earth Science
Chemistry

Project / Essay Assistance

My rate is a flat \$20 per hour. I prefer scheduling to be done with at least a two day notice, and can work any day.

If you would like to know more about me or the service I provide, feel free to call, text or email.
