I am looking for only the best dancers. We perform for the ladies every Saturday at my establishment in an evening entitled Seduction Serenade Party, now I am looking to create a show for the fellas. So if you are a gifted dancer and are not afraid of dancing publicly. I would love to speak with you. As I am a dancer as well as a musician I love the stage, and am looking for women of similar love. If you are very good at what you do you might also be given the opportunity to be a back-up dancer for my up coming tour, as well as a featured dancer in a music.
