If you watch much television, you've probably seen a commercial for Angie's List. Well, this Angie has a list of her own. It has nothing to do with contractors but everything to do with what a perfect puppy she is.

1. Physical Appearance: Angie is a 4 month old, 13 lbs. Terrier mix
2. Skills: she knows "sit", "come", is crate trained, and nearly house-trained
3. Hobbies: playing with other dogs, chewing on bones and toys
4. Social Life: does fantastic with other dogs - knows to leave the grouchy ones alone, never met cats, just stares at the aliens behind the fence called "goats and ducks". Adores humans.
5. Security: she alert barks when someone comes to the door then greets them with whole body wiggles and kisses
6. Relaxation: Angie is crated at bedtime and when her people are out, she whines in protest for a minute then settles. She loves to lay in laps, which she doesn't mind sharing, and will even chew her bone while there.

Summary: Angie is an active, affectionate puppy who loves everyone. She has not officially met any yet - but she should be fine with kind, respectful children. Angie is great with other dogs (though she doesn't like sharing bones). She will surely be #1 on your list of "best dogs ever"!

Angie is spayed, vaccinated, and micro-chipped. An application with references, a home visit, and an adoption fee are required to adopt Angie. Reply to this posting for.
