Looking for a sled to finish out the snowmobiling season? I have a 97' Polaris Indy 500 with trailer for sale. It has one tear in the seat but starts up and runs. The trailer is custom made with ski tracks and ski lockdown bar. It also has a higher coupler but I do have an adjustable hitch I can throw in. The trailer isn't a traditional "tilt" trailer but it is light enough to lift the tounge and roll the snowmobile off. Feel free to email, text or call me for more information. Looking for \$1200 obo or would be willing to trade for a 4 stroke 4 to 6 horse
