I offer two packages: the first is an all-inclusive fee of $80 an hour with half-hour options after the first. That means you only pay for the actual time I'm needed. I use up-to-date, high quality equipment and guarantee my work. You'll get ALL the files from our shoot. A dozen of the best will be edited in photoshop. If you see others you'd like edited when you get your copy, I'll edit up to 12 more at no additional cost. Framing a photo? Let me know, and I'll crop a copy to the size of your frame/mat; that's a lifetime offer. There won't be any logos or names printed on your pictures, and you'll get your copies within 5 (usually 3) working days.

I'm also offering a package for an hourly fee of $60, designed for photo sessions/weddings that don't need all of the photo files from the session. Everything about this offer is exactly the same as the $80 package (excluding the half hour option), except I will deliver 15 of the best photos instead of the entire shoot.

Portfolio available upon request.
