Hello,

We are new to needing to ask for help and are willing to pay for your services. We are very tight on money right now. My husband is handicapped and I am recently injured and recuperating. We have two handicapped children who will not be able to swim in their pool this year because my husband and I are unable to open the pool, hook up the hoses and vacuum it. It is a 15 foot above ground pool. It is not a huge job. The cover has already been removed. We can not do anything further due to our physical limitations.

We are willing to pay for help and are not looking for a hand out. If anyone can spare a few hours to do this for us, if you are experienced with ordinary above ground pools and are willing to spare some time for a reasonable fee to help us out once things thaw out could you PLEASE contact me? There is only one source of income coming in to our home at the moment and we are drowning in bills. We need help.

It breaks my heart that my kids won't get to use their pool unless I can get someone with a kind heart to help us out. I have contacted pool supply stores and they want hundreds of dollars for this work, which we simply cannot afford.

Thank you so very much if you are able to!!
