

Duplicant 3D Printing and Design Services (Capitol Hill)

Location **Washington**
<https://www.genclassifieds.com/x-317491-z>

Located on Capitol Hill, we offer competitively priced 3D printing services in both FDM (extruded plastic) and SLA (high detail resin). Our FDM printer has a large build area (11 x 11 x 12 in), and can print in PLA, ABS, Nylon, and high strength PET. The SLA printer has a build area of 5 x 4 x 7 in, and can create incredibly finely detailed objects at resolutions as fine as 25 microns (.025mm)! This makes it perfect for machine parts, jewelry, miniatures, or anything else that needs intricate features and an ultra smooth surface finish.

Do you also need something designed? Let us know and we can both design and print your project!

We can accommodate rush orders as well, and same day turn around may possible depending on the size of the piece you need to print. Please don't hesitate to contact us with any questions,!
