Hello Everyone!

My name is Kaylynn and I am on here to help my family. My family consists of myself, my husband Anthony, and our 8 month old daughter Jasmine. We have both young adults, and have come from unstable families, so it has been hard finding a stable place to live and raise our daughter. We have had terrible luck with jobs, with roommates, and even with our family members. We are currently homeless because we trusted our family, and they in turn stole all of our money, and left us with no place to go. I am a full time student at PCC, and I only use grants to cover my expenses, so there is never much left over. We will not have any type of income for a couple of weeks, and with no place to take my 8 month old. Anthony has finally found a job, but we need help until we can make it happen on our own. We are both hardworking, loving parents. We have just found ourselves in a spot trusting the wrong people, our own family. Thank you to all who even take the time looking at our story, and your help and prayers are much appreciated!
