

Looking for a female pup

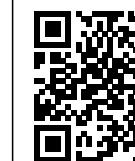

Location

Washington<https://www.genclassifieds.com/x-317569-z>

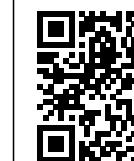

I am looking for a female dog to add to my brothers and my family. My brother has a male lab/Australian Shepard mix and I have a 2 year old who's birthday is next week. I'd love to home a female dog to add to our family. We have a fenced yard(used so the dogs can run) right now our mother watches the house when we are at work but we are home when we are not at work. The dog would come with me to work (size does not matter) on some days. Needs to be house broken! Please let me know if your female pup can be our forever daughter. (Pictured is my son and my brothers)
