80,000 +miles. I bought it at an estate sale last November. The old guy died 5 years ago, and his wife died last fall; the truck had not ran since the husband passed. The gas was no good. Put a carb kit in it and changed plugs, plug wires, distributor cap & rotor; seems to run down the road pretty darn good; doesn't wander all over. Topper is like new. Interior is good, dash isn't cracked; body very straight with no apparent rust, and box interior is great! 2-wheel drive. Tires are shot. I really don't know what it's worth, but I have to start somewhere. Either that or put it on eBay and see what happens. I'll try this for awhile. Offers considered. Call or text Steve at
