Bonded pair of Greenwing Macaws that need a good forever home., Male & Female, 9-12 months, Others, Bonded pair of Green wing Macaws that need a good home. They are DNA sexed male and female. They are great beautiful exotic birds in need of a new home due to moving. They come with cage + accessories. They say a few words and the male will bark like our dog. They're fave treats are fruit cups and peanuts. I do not want to separate them unless I have to. Great pets, they are tamed once they get your trust. Amazing personalities and will only rehome to experienced bird owners with time and dedication.
