

TWO male declawedneutered cats (columbia)

Location **South Carolina**
<https://www.genclassifieds.com/x-317645-z>

Max and Tommy are two male cats both approximately 3 years old. One is a gray tabby and the other is orange. They are both declawed in the front. Both litter box trained and never have accidents and do not spray. Very healthy and rabies vaccinations are current. We are not just "getting rid" of the cats. They need rehomed because of a new addition to our home that has a severe allergy to cats and medication is not working. They are free but a new home "look see" is.
