

# KENWOOD home audio speakers JL (990 USD)

Location

Tennessee

<https://www.genclassifieds.com/x-317736-z>

I have had these speakers for around 15 years, still sound great. The mesh/fabric covers have a couple small tears and the cone on one woofer is dented in ( I purchased these this way and does not effect sound). Speaker stand 41" tall and are 15" wide. Sorry for blurry pic of speaker covers but covers really are not bad looking.

Thanks
