

GREY CAT MISSY STILL MISSING (E. VanNormanGriffin Area)

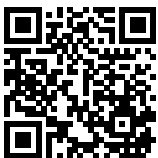

Location **Wisconsin**
<https://www.genclassifieds.com/x-317917-z>

Our female all grey cat (Missy) got out August 2013 and is still missing. She had been sick in June/July and was very skinny and recuperating. She had gotten off a feeding tube two weeks prior to her disappearance. She needs medication. She is all grey except for a very small white spot just below her neck on her chest. She is not wearing a collar because she is an indoor cat. She is microchipped through the Wisc. Humane Society--12 years ago. She will not bite; probably very scared. Please call if you've seen her.

or

THANKS. We miss!
