

Energetic Bengal Kittens

Location **Utah**
<https://www.genclassifieds.com/x-318041-z>

Brother and sister, very cuddly and tame, ready for their new homes now. Both mother and father can be seen. Mum is a Snow Marble Bengal, Dad is a Brown spotted Bengal. Beautiful temperament, great with kids and other cats, raised in a family environment so used to household noises.

Gorgeous markings and loaded with glitter, they come with a Kitten Pack which includes 5 generation paperwork for both parents, at least a weeks food, next months flea and wormer treatments, information sheet and one months PetPlan insurance. Both are eating well, fully weaned on raw meat and Royal Canin 34 Kitten, fully vet checked and healthy. Flea treated and wormed regularly since 2 weeks old Neither have been vaccinated, but both parents are fully up to date (including leukemia). Drop me a mail or give me a call for more details.
