I am a community manager for a nonprofit student exchange program. I am trying to promote international student exchange. To be successful I am in need of host families who are willing to open their hearts and home to an exchange student. We have students from many different countries and they just want the chance to experience living in America for one school year.

What I need from you is to simple ask your friends, family and neighbors if anyone would be interested in learning more about hosting an exchange student. I can answer any questions they may have and more. If someone you refer to me ends up becoming a host family, you will receive a \$100 referral fee per host family. It is that simple. If you would like more information yourself on hosting or if you would like to become more involved with our great cause by becoming a coordinator, send me a reply.

I look forward to working with you,  
Becky
