Looking for a sales person who needs some extra income. My company probably has the lowest rates for both screen printing and embroidery services. All profit you make on the mark-up of the prices we quote you will be entirely yours. For example if someone wants a one color(sometimes two color) one sided(front or back) screen printed logo on a white t-shirt our charge is only $4.52. Anything over that price you charge is 100% profit for you. Colored tees sell for around $5.37. Polo's with a simple embroidery start at $8.87 for white and $10.02 for colors. Caps and beanies start at $9.37 each with embroidery.

The number of potential custmers is endless. Some leads can be furnished.

If you have sales and a little/appointmment setting/telemarketing background; we would like to hear from.
