Please don't let my Polaroid or 120 film go to waste. I've recently purchased 2 rolls of 120 Kodak Portra, and 1 roll of 120 illford HP Delta I'd like to use either in my 6x6 or my 6x4.5 camera. Along with 2 packages of type 600 color Polaroid for my modified sx-70 camera and 2 boxes of Fujifilm 3.25x4.25 for use in either my Holgaroid (holga with polaroid back) or testing with an old Polaroid I have. I bought these for use in portraiture and posted another ad about doing a sensual/intimate/suicide girls type shoot because I figured it'd be an easy way to get good positive use of the film. A means of making sure I got good results at the end. But thus far there haven't been any takers and as I near the deadline for it, it doesn't become worth it to reserve the location if I'm not going to use it.

So I'm open to ideas! What would you like to shoot? What would you like to do? I'm looking for good ways to use up these films. I don't care what it is as long as it's a good idea. I don't care if it's fashion, cosplayers, body painting, nude or non nude, something conservative, something experimental, something from a story book, or anything else. And I'll even pay you for your modeling time. Just don't let good film good to waste. Tell me what you want to!
