Hello,

I am attempting to start a kickboxing class for females, I specifically need a person of "similar" likeness. I need the women to feel comfortable. I can't pay much or maybe not at all until there is clientel. If I receive clients then we will work something out, maybe a percentage or contract per class. You don't have to clean, move equipment, etc unless during class...I'll set up everything and tear down. I need someone personable that knows kickboxing techniques (not just cardio kickboxing) although the class intends to include cardio. This is in a safe location. If interested please advise and let's work something out..
