Looking for model for photo shoot. (anchorage)

Location **Alaska**

https://www.genclassifieds.com/x-318279-z

  It's been years since I produced new work and I also haven't produced anything since moving to Alaska and I would like to change that. For this shoot I'm seeking a female model to work with/collaborate with on an early morning, sensual/intimate style shoot. The kind of thing you'd see maybe in a Suicidegirls picture for example. The theme is a girl in a singular intimate location in various stages of undress. While images can have a seductive nature to them, I'm hoping to go more for a sensual look. Something a little more subtle, soft, and meaningful to communicate an idea of elegance and maturity in sexuality.

  To accomplish this I have talked to a local hotel for a discounted rated to be the backdrop of the shoot. Ideally I'd like to shoot early morning for a few hours and use natural light as it's very soft, directional, and easy to use. I would also like to use a combination of 120 medium format film, type 600 Polaroids, and digital slr as my clean looking back up. It is my feeling that older, imperfect film offers a more rustic, sensual, and honest feel to images and works well with my theme.

  I'm looking for a model who is proficient with doing their own hair/make up, can work with me on outfits, is comfortable in various stages of undress ranging from implied nudity to partial and full, and is comfortable with posing themselves with little direction so I'm not feeling like I'm barking orders at someone. For your time I'm offering $100 for 3-4 hours. If chosen I would like to send you a copy of the release form to look over before the shoot and approve or alter if need be, so day of the shoot you know what you're signing.

  Thank you and I look forward to working with you and creating some new work to.
