

What I offer:

Screenwriting: I can work with you to develop and plot your story, then I'll write the screenplay. I can also develop and write a script based on a book you've written.

Mentoring: I'll guide you through the step-by-step process of writing a screenplay.

So why hire me?

Like I said above, my work has been produced. I've won awards. I'm not some kid just out of film school. I'm a full-time screenwriter. I've read hundreds of scripts. Know tons of people in the film industry and have producers interested in my work. And I'm a nice person. Fun to work with, with a great work ethic.

So what are my rates?

No two projects are alike. Money is based on how much work I'll need to do. After we talk, I'll give you a quote. But trust me I'm quite real.

So drop me a line. Let's get started.

Isn't it time to start living your dream?
