I, David Francis, am looking to build a team of animators for a future youtube television series. The show, entitled "SPED"(SPecial EDucation), written and directed by Christopher Markle, follows a senior in high school who mistakenly winds up in special ed. He ends up meeting a "friend", in the loosest term possible, who fills his life with disarray and a plethora of hijinks. There are musical numbers, cutaway gags, and rapid fast banter.

We need animators, preferably 4-5, who are open to ideas and helping get this show on its feet. We need character designers, background designers, trace artists, shading artists, and texture artists. The goal is to have a team by summer, because we all know that things tend to get busy during the semester. We intend to move forward by August.

We are also looking for mixers, writers, editors, musicians, storyboard artists, voice talents, and secretaries/accountants (for our money purposes). All are welcomed to apply.

My contact information is available, please contact me if you are interested in becoming part of our team.

Let's do this!!!!!!!
