New black La Jolla beach Cruiser with very high chrome ape hanger handle bars. Nobby dirt tire on back rim and street tread style tire on front rim. I built this bike, and there is not another like it. It has a thumb bell on Right handle bar says I love my dog, and on the left side of handle bar there is a vintage trumpet like horn with black rubber squeeze to force air to make sound. On back rim there was a white plastic emblem with a native american bear paw printed on it. I hope the thief rides safe, and finds his destination soon. Please call You can remain anonymous I just want the bike. Thanks here is a video of the bike at end of short video. <http://youtu.be/5ou8bRHLGY8?list=UUC3nqjrKOfdbPgHf60xsPqg>
