That's a typical response to FACTS, PUBE.

"MARXIST COMMUNIST UTOPIA!"

BLAH BLAH BLAH. BORING TIRED AND STALE, PUBE.

Lets test the PUBE, does the PUBE actually believe communist countries are democratic? I LOVE democracy and America, PUBE. You sure as fuck don't. I'm a true American, not a fascist like you. Calling people with critical thinking skills Marxist and communist day after day is what's really funny!

How about you show me line by line which part of that link is propoganda and lies? Would your brain burst into flames if you actually read it again as an objective critical thinking person. Naw, you just reject facts immediately, like a typical bible thumping fascist tea bagger.

Thanks yet again for showing your stupidity numb nuts bagger.

Open up for more of that warm, creamy, gooey, fascist AM radio splooge, gorge on it, vomit it back out and repeat! BUUUUURP!

EAT IT PUBES!
