

Paid Online Research Study Regarding Migraines

Location **Colorado**
<https://www.genclassifieds.com/x-318519-z>

ICG is an independent healthcare research firm looking to engage with adults diagnosed with migraines. We are creating a small, private online community for adults diagnosed with migraines. Over the course of 6 months, each month, a short set of discussion questions will be posted to the online discussion board for participants to respond to. Participants will be asked to respond to the questions at their convenience, anytime over the course of the week the questions have been posted. The online board will run for 6 months, and participants will receive a base compensation of \$20 per month as well as quarterly drawings for iPads and member of the month bonuses

If you choose to participate, you will be a part of an exciting online community where you can talk about your life, connect with others in the community, and provide feedback on materials and ideas that will go directly to decision-makers in the healthcare industry, which in turn could be used to help other adults who are affected by migraines.

If this sounds like something you are interested in, please follow the link below to determine if you are eligible to participate.
