The goal of a resume is to get you an interview, but to do so, you need to know HOW TO WRITE A RESUME that showcases your strengths, demonstrating to the hiring manager or recruiter why you're the right person for the job.
I have 14 years' experience as a senior HR professional, so I know exactly which resumes get read and which get tossed. I can develop yours into a resume guaranteed to get results. I never use templates, but instead create a customized document that will get you an interview.
Don't be taken in by services that claim to write your resume and cover letter within hours for only \$25. First of all, there is no such thing as a template cover letter, and you should NOT use one. I'll guide you in how to develop one for each specific job you're applying to. Furthermore, WRITING A RESUME is a collaborative process, so you and I will work on it through several drafts - I don't hand it to someone on my staff who will produce one based on a template.

Career counseling provided as an add-on service.
