OI

My name is Dean and I have been into creating some really weird/dark/creepy sounding rap instrumentals lately. I've been at it for over eight months now and I have gained enough confidence in my style of beat making to see if any vocalists or fellow beat makers would want to help collaborate with me.

There is a link to one of my many beats, the alias I use is borenobore. Feel free to listen to any and all of my music on there and let me now what you think!!! Just Feedback is welcome!!!
