## REWARD LOST FEMALE LABRADOODLES (malad id)

Location Utah https://www.genclassifieds.com/x-331389-z

Our 3 year old Labradoodle dogs, Gertie and Pearl got loose late the night of Mar 30 at the Malad ID rest stop on Northbound I-15. They both have tags with our cell numbers and are chipped. Gertie is the ginger and Pearl is black. They are very friendly and complete idiots, but for some reason we would really like to get them back. Reward for safe.
