Hi There, I am an experienced "car guy" and will sell your car for you for a small percentage of the final sales price. I will come meet with you, go over the car, take pictures of it and post it for sale, schedule and meet potential buyers, handle test drives, negotiate the final sales price, handle title transfer and bill of sale and deliver cash or certified check to you.

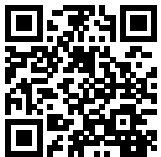

Depending on the condition of the car and what you expect to get out of it I can arrange for detailing services or whatever else might be needed to help you make a successful sale and cash in your pocket.

So reply, call or text me to discuss further how it all works.
