I'm looking for a graphic artist that can make an album cover for my band Of The Heavy Sun. We're a two piece psychedelic rock band and we're finishing up recording our first album. I have an idea in my head based on this article

I like how they took the artists and painted them. I would like to have a painting of my bandmate and I along with the words "of the heavy sun" and some sort of trippy psychedelic background (heres our page with picture and a couple tracks) <http://www.reverbnation.com/oftheheavysun>

Just message me some of your work if youre interested and we can talk price/time.
