Hello all!

A friend of mine who shot a great short film told me he found some of the best crew members he's ever worked with from craigslist. So, we are deciding to give it a try.

We are a local independent production company seeking crew members to work on our upcoming short film. This short film is the culmination of study, evaluation, dedicated pre-production, and most importantly - A GREAT STORY!

We have our written script, we have our financing, we have our locations, now we need to find YOU!  
Here are a list of crew positions we are still looking to fill.

1. Director of Photography
2. 1st AD/2nd AD
3. Gaffer
4. Boom Operator
5. Sound Mixer
6. Composer
7. Script Supervisor
8. Craft Services
9. PA x 4
10. Security/Firewatch
11. Editor

Many of these positions involve travel and you need some experience. We need a love to travel and reply! We are very passionate about this project and decided that the first great step to finding crew was to put out our needs on craigslist.
