Why host an International Exchange Student?

Hosting an international student is a positive, life-changing experience. You will learn about another culture and your own through the eyes of a teenager from another country. The relationship you form with your student will create a life-long friendship and bridge different nations, fostering international understanding and a stronger more peaceful world.

Students live with a volunteer host family for 5 or 10 months while attending high school.

All students bring their own spending money and are fully insured, so the investment for host families is minimal. Families provide a bedroom (this can be shared with a similar aged sibling) and meals to their host child; in return gaining a cross-cultural experience and lasting gratitude of a young person and their family from overseas.

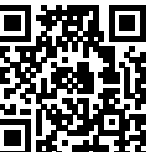

Who are our students and host families?

Host families select a host son or daughter based on student profiles which include a photo collage and personal essay. You do not have to have children of your own to host, just be open to providing a welcoming and loving home. ASSE does not discriminate on the basis of age, ethnic background, race, sexual orientation or religious affiliation.
